Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

It is noted of the Lau reference 6,934,997. It is noted that Lau teaches a damping device connected to the upper of a locking means position as shown in Fig. 3 and 4. It is noted that the claim recites the damping means floatably disposed between the lower portion of the sliding tube and a bottom of the support tube. It is noted that the damping means of Lau is a different damping means than the damping means as set forth in the claim. The damping means in Lau is meant for moving the handle upward gradually and dampedly with structures that to be used on the inside of the inner tube and not outside of the inner tube notably the sliding portion 1661 cannot be used outside of the inner tube because of its interference with the tube itself. Thus to modify the damping means of Lau in other references. e.g. Kazmark '615 or Tsai '266 would have been impossible. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
